

# Energy Programs at USDA

A faint, light blue background illustration of a rural landscape. It features a water tower on the right, a house in the center, and another house on the left. The foreground consists of rolling green hills.

**Tim O'Connell**

**Assistant to the State Director/  
Rural Energy Coordinator**

**USDA/Rural Development**

# Rural Development

Over 40 grant, direct loan, and guaranteed loan programs to finance housing, businesses, and infrastructure in rural areas.

## Program Areas:

- **Rural Housing Programs**
- **Rural Utility Programs**
- **Rural Business and Cooperative Programs**

<http://www.rurdev.usda.gov>

# “Old” Energy Programs

- **Section 9006: Provide guaranteed loans and/or grants to farmers, ranchers and rural small businesses for renewable energy systems and/or energy efficiency projects.**
- **Section 9008: Biomass Research and Development—partnership between USDA and DOE**

# “New” Energy Programs

- **Rural Energy for America Program (REAP): Replaces Section 9006**
- **Biorefinery Assistance**
- **Biomass Crop Assistance Program**
- **Repowering Assistance**
- **Bioenergy Program for Advanced Biofuels**
- **Biomass Research and Development (continuation of 9008)**

# Rural Energy for America

- **Enhancements from previous program:**
  - **More technologies available (now includes small hydro and wave energy)**
  - **Increases loan guarantees from \$10M to \$25M**
  - **Establishes an energy audit grant program**
  - **Allows grants for feasibility studies**
  - **Increases combined guaranteed loan/grant combination from 50% to 75% of project costs (subject to statutory \$ limits)**

# Biomass Research and Development

- **Continuation of Section 9008:**
  - **Reduces research topic areas from 4 to 3**
    - **Feedstocks,**
    - **Biofuels and Biobased Products Development,**
    - **Biofuels Development Analysis**

# Biorefinery Assistance

## Section 9003 provides:

- **Grants covering up to 30% of the cost of developing and building demonstration-scale biorefineries for producing "advanced biofuels," which essentially includes all fuels that are not produced from corn kernel starch.**
- **Loan guarantees of up to \$250 million for building commercial-scale biorefineries to produce advanced biofuels.**
